LIFESTYLETFL™

A textured TFL line manufactured exclusively by Specialty Laminates. This collection was created with designers in mind.

loft™

loft ™ unique texture and woodgrain structure offers a modern elegance and refined feel. Meticulously crafted to represent a panel that is heavy in character and mimics the sought after look and feel of sawn timber.

loft ™ utilizes multiple gloss levels with randomly placed cross-grain cuts along the length and width of each panel surface to pronounce the sawn timber texture. The non-directional nature of the loft texture ensures that each panel is extremely versatile and attractive in both horizontal and vertical grain appearance.

SPECIFICATIONS

PANEL THICKNESS	1/4 to 1 1/2	6mm to 38mm
PANEL FORMAT	48 x 97 61 x 97 61 x 121	245mm x 2464mm 1550mm x 2464mm 1550mm x 307333

natural wood™

Our naturalwood ™ texture features a low - luster polish combined with a complex embossed “ticking” texture for a realistic wood grain effect.

naturalwood ™ enhances both modern straight grain patterns as well as cathedral patterns in the most authentic way.

naturalwood ™ is ideal for any surface where you desire the character of real wood veneer but demand the easy care attributes of thermally fused laminates (TFL)

ultra matte™

As beautiful as it is durable, our contemporary ultra matte ™ features an ultra smooth “soft to the touch” satin finish. ultra matte ™ is a non reflective, low sheen finish that resists fingertips - requiring little maintenance.

ultra matte ™ is ideally suited for vertical surfaces in both residential and commercial applications.
