

Westpine MDF

SECTION 1. IDENTIFICATION

Product Identifier	Westpine MDF
Other Means of Identification	Medium Density Fibreboard (MDF)
Other Identification	Westpine MDF, various grades
Recommended Use	The product is used for furniture, cabinetry, flooring, and millwork. MDF is manufactured from ligno-cellulosic fibres (wood matter) bonded together with a no-added formaldehyde containing binder - polymeric MDI - (4,4'-methylenediphenyl diisocyanate (MDI)). Note the hazards are determined based on wood dust (softwood) generated as a result of cutting, sanding or disturbing the product. The amount of polymeric MDI present in the final product is insignificant and below reporting thresholds.
Manufacturer / Supplier	West Fraser WestPine, 300 Carradice Road, Quesnel, BC, V2J 5Z7
Other Contact Information	West Fraser Ranger Board, Box 6 , Blue Ridge, Alberta, T0E 0B0
Emergency Phone No.	West Fraser (Name not available), 1-604-895-2700 (fax: 1-604-681-6061)
SDS No.	005
Date of Preparation	June 10, 2015

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification

Skin corrosion/irritation - Category 2; Serious eye damage/eye irritation - Category 2A; Carcinogenicity - Category 1; Specific target organ toxicity (single exposure) - Category 3; Specific target organ toxicity (repeated exposure) - Category 1

OSHA Defined Hazards: Combustible dust

GHS Label Elements

Signal Word:

Danger

Hazard Statement(s):

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H350 May cause cancer if inhaled.

H372 Causes damage to organs (respiratory system, lungs) through prolonged or repeated exposure if inhaled.

H335 May cause respiratory irritation.

Precautionary Statement(s):

Prevention:

P260 Do not breathe dust.

Product Identifier: Westpine MDF
SDS No.: 005
